

## ILA - FEE SCHEDULES

This worksheet will calculate the new fees for all the schedules in the ILA Rules Procedures. It is currently set to reflect the fee rates for the period:

July 1, 2012  
June 30, 2013

B/A Multiplier = 4.56

The ILA Fees are based on the following calculation:

Where b = the Gross National Product of Canada in current dollars for the year previous to the year in which the fees are being charged. (see Section 7.(32) of IFA)

Therefore b = 1586400 (Spring 2011 Edition of Bank of Canada Review) Table V499688

Where a = the Gross National Product of Canada in current dollars for the year 1982.  
(see Section 7.(32) of IFA)

Therefore a = 366610

Finally: =  $1671960/366610 = 4.56$
